

Well, this is the last English News of the calendar year¹. I have made two fewer than last year at this point² because we had more holidays this year. I don't think that's a bad thing. And this week we only have two days. Today we have lots of cleaning (I want you to polish³ the floors until I can eat my dinner off them) and then tomorrow we have our Christmas assembly⁴. I always look forward to it and I never get tired of watching the pageant and listening to the songs. I think Christmas is a fabulous⁵ time of year. What do you think?

Something You Didn't Know (Star Wars⁶)

- 1. Star Wars is only the fifth highest grossing series of movies⁷ but it has a Guinness Record⁸ for the most successful film merchandising franchise⁹. The movies have grossed¹⁰ \$4.5 billion but the merchandise has made close to \$40 billion.
- 2. When George Lucas made the first movie there was a very low budget¹¹. He knew they wouldn't have enough money for his director's¹² salary¹³ so he agreed to¹⁴ take a percentage of¹⁵ the profits¹⁶ and merchandise. He didn't know it but that deal¹⁷ has made him billions of dollars.
- 3. The man who plays Darth Vader¹⁸ and his voice are two different people. The actor, David Prowse, is very tall but his accent¹⁹ was not scary²⁰ enough. His voice was done by James Earl Jones. Also, a different actor was used when we see Darth Vader's face at the end of the movie.

<u>News</u> Star Wars VII Opens This Week

I know this is the second movie story I have done in a month, but you'll have to forgive me because it's STAR WARS!! Everyone loves Star Wars, and if they don't, they should! This week the latest episode²¹ in the Star Wars franchise²² is being released²³. Many people are very skeptical²⁴ about this movie for a number of reasons. Firstly, movies four, five and six were a letdown²⁵.

The movie introduces³² some new characters and new plotlines³³, while also bringing back some of the original characters from the first movie, (filmed in 1977, the year I was born). I will have to try to get permission³⁴ from my wife to go and watch this movie. Are any of you going?

And, secondly, Disney bought the rights²⁶ to the franchise from George Lucas a few years ago for \$4 billion dollars, and Disney cannot always be relied upon²⁷ to produce a good movie. Anyway, the film premiered²⁸ last week for the critics²⁹ and many of them have given the film very positive reviews³⁰. They say Star Wars fans will not be disappointed³¹.
