

This is the last week before your tests. Yeah! Are you excited? I hope you are studying well. Remembering all of those useful facts. I remember when I had to study for tests in the summer. I would open my textbook, take out a pencil and some paper, and then just stare out of the window. It always happened. It was inevitable<sup>1</sup>. Luckily, a lot of my tests were essay questions. I like those because even if you can't remember specific<sup>2</sup> facts<sup>3</sup> you can still explain and write a lot. They were my favorite kind of tests. What about you?

### Something Interesting (Weddings)

1. Nearly all brides<sup>4</sup> wear a white wedding dress now. This is because of Queen Victoria of the UK. Before she got married wedding dresses were many colors. Queen Victoria got married in white. People saw pictures of her wedding and she started a fashion that has lasted<sup>5</sup>.
2. The music “here comes the bride” played at many weddings is actually part of the German opera Lohengrin by Richard Wagner. He was Adolph Hitler’s favorite composer<sup>6</sup>.
3. The global<sup>7</sup> wedding industry<sup>8</sup> was worth \$300,000,000,000 in 2016.
4. The average wedding costs about \$30,000. However, expensive weddings cause debt<sup>9</sup> and stress. People who spend less on weddings are less likely to<sup>10</sup> divorce<sup>11</sup> than people who spend more.
5. Twenty-three countries allow same-sex<sup>12</sup> weddings.

## Last Week's Answers

## Announcements

This is the start of Christian Week. There is a class leader meeting on Monday. Eiken is on Saturday.

Your tests are next week.  
Good luck.

## Prince Harry Marries Meghan Markle

I'm sure you already know this, but last week Prince Harry married Meghan Markle. The wedding was broadcast<sup>13</sup> around the world. My wife watched it here in Japan. It was a very beautiful event, and everything appeared to go smoothly. I had to watch it here in Japan because I think they forgot to send me my invitation<sup>14</sup>. I'm sure it was just an oversight<sup>15</sup> and they'll probably call me to apologize<sup>16</sup> in the next few days.

The wedding was held in Windsor Castle. Prince Harry had to get permission<sup>17</sup> from the Queen, his grandmother, to marry, to use the castle and to wear his uniform without shaving. Meghan Markle's father couldn't attend the wedding, so she was walked down the aisle by Prince Charles, Harry's father. She wore a white dress designed by Clare Waight Keller, a British designer, and, apparently<sup>18</sup>, it cost more than my house.

Meghan, however, will not become a princess. You can only be a prince or a princess if you are born into the royal family. She can be called HRH<sup>19</sup> Princess Henry of Wales, if she uses her husbands name. She has also been made the Duchess of Essex. And, now she is royalty, she doesn't need to use a surname anymore. Harry's surname is Windsor-Mountbatton, but he goes by "Wales", which comes from his father's title<sup>20</sup>, Prince of Wales. Very confusing<sup>21</sup>.

## Strange World Records

Do you own a toilet? Does it have a toilet seat? Probably. I expect it's made of plastic. They used to be made of wood. Big, heavy and wooden. Well, Kevin Shelley has the world record for breaking them with his head. Yep. You heard me right. Kevin Shelley broke 46 wooden toilet seats with his head in 1 minute. He is an elementary school teacher and a martial artist<sup>1</sup>. We should see if we can break that record. We must have 40 or so toilets in this school. Are there any volunteers to try? If there are, come and see me. We can call the people at Guinness.

# ★ Places you should visit ★

If you have the time and the money you should visit the Redwood National Park<sup>2</sup> in California, USA. This park is home to the tallest species<sup>3</sup> of tree in the world: the Giant Redwood. Redwoods can grow to over 100m tall and they live for thousands of years. A large part of America used to be covered in trees like this, but they were gradually<sup>4</sup> cut down to build the growing cities of the American west coast. Now, you can only see them in protected places like this. The park is also home to many other types of flora and fauna<sup>5</sup>. If you do go to the park, you can walk along the paths, take guided tours, or just wander off<sup>6</sup> into the wilderness<sup>7</sup>. Be warned though, if you do head the wrong way, we may never see you again.

# ★ A Strange World Food ★

## Bird's Nest Soup

This is a soup made with a real bird's nest<sup>8</sup>. It is the nest of a type of swift<sup>9</sup>. The bird makes its nest using its own saliva<sup>10</sup> which solidifies<sup>11</sup>. They are very expensive. A kg of red bird's nests can cost up to \$10,000. The nests become red because they absorb<sup>12</sup> a mineral from the limestone<sup>13</sup> walls the birds build them on.

Only I can change my life. No one can do it for me.
